

A peer learning group:

Lean Startup In the Enterprise

Lean Startup in the Enterprise is a peer learning group, open to those in large Twin Cities organizations interested in Lean Startup strategies and best practices.

Our Fall 2017 program offers a unique opportunity to learn about a bold new initiative at U.S. Bank: growing the entrepreneurial mindset at the bank.

In this session, hosted by the Carlson School, we will hear about U.S. Bank's experiences implementing lean startup, the challenges along the way, and lessons learned.
